

The Essence of Mother Earth in Every Drop,

every drop restores calm, balance and well-being.

## FOUNDER'S NOTE:

For nearly 15 years, as a Chartered Accountant, my life revolved around deadlines and discipline. Long work hours left my body aching, and stress often triggered migraines that no painkillers could fix. Spas and wellness centers became my weekend refuge, offering calm surroundings and flawless service, but the oils never brought the kind of lasting healing I had known Ayurveda could bring to my mind, body, and spirit.

Having grown up around traditional herbs and Ayurvedic healing, I began experimenting at home. What started as a curiosity soon became my passion. I blended pure botanicals, revived age-old formulas, and created oils that brought me more comfort and balance than anything I had experienced before. This realization eventually planted the seed of Ubiquity Wellness.

With the same discipline I once applied to finance, I now pour care and precision into every blend. **Inspired by Mother Earth's abundance of ingredients and guided by Ayurvedic experts, our oils are crafted to be pure, authentic, and deeply healing.**

What began as my search for balance is now Ubiquity Wellness, and my mission is to **create blends that nourish the body, restore peace of mind, and heal your spirit.**

## The Sacred Resonance of Om in Every Blend

Each blend is created in the serene rhythm of Om, infusing every drop with harmony and balance.

The subtle vibrations of Om chanting elevate the purity and energy of the oils, making them more nurturing to body and mind.

# Our Essence

At Ubiquity, we believe true wellness begins with nature. We craft pure, Ayurveda-inspired formulations that luxury spas and wellness centers can trust. Using the finest sustainable sourced botanicals, we blend ancient wisdom with modern needs—helping people reconnect with themselves through mindful healing.

## What We Aspire For

We see a future where authentic, high-quality and cruelty-free botanical products become the first choice in self-care. A world where natural therapies and botanicals enrich lives globally—helping people slow down, heal, and truly thrive mentally and physically.

# THE CORE

A woman with dark hair tied back is lying face down on a massage table, receiving a deep tissue massage on her back. The masseuse's hands are visible, applying pressure to the woman's shoulder and neck. The background is softly lit with warm, glowing lights, and a lit candle is visible on the right side of the frame. The overall atmosphere is relaxing and therapeutic.
